NUMBER 36

TICKET NAMED BY DEMOCRATS

UNCLE JESSE KNIGHT TO RUN FOR STATE LEGISLATURE

Tuesday morning about eleven o'clock over 300 Democratic delegates from various precincts of Utah County were called to order at the City Pavilion by County Chairman W. F. Giles. Andrew B. Morgan was appointed temporary chairman by the convention and made a rousing speech condemning the actions of the Republicans in the country and elsewhere. Committees were then appointed on resolutions, organization and platform. Resolutions which were ordered to be read after luncheon. The convention adjourned until two o'clock. The convention was called to order at 2:30 p. m. by A. B. Morgan and the reports of the committees on credentials and permanent organization read. While waiting for the report of the committee on platform and resolutions, Mr. M. M. Kellogg of Provo took the floor and addressed the convention on the subject of state wide prohibition. He said he was in favor of the movement and provided towns had the right to vote on the question without their corporate limits independent of the state. If this proviso was lacking the judge said he was not in favor of the prohibition plank in the state platform. James H. Clark from American Fork moved the Judge, stating that he was in favor of state wide prohibition in the fullest sense of the word. He said he would like to see the evil placed on a par with theft, murder and other crimes and legislated against in the same way. Mr. M. Roylance killed a little time by the delegates to place the best in the field. N. Taylor of Provo, gave a short speech denouncing Republican principles. When the report of the committee on platform and resolutions was brought it was found to be in harmony with the state Democratic platform.

The principal objection to the platform was put in the form of an amendment by W. M. Roylance calling for a public service commission. The objection to the amendment was led by Abel John Evans of Lehi who thought the commission would hamper the work of railroads and shippers.

Jesse Knight took up the cudgel in defense of the amendment and stated that he had lost about \$150,000 because of discrimination of the railroads between his smelter and the trust smelters of Bingham and Park City. The majority of the convention stood with Mr. Roylance and "Uncle" Jesse and the amendment became a part of the platform.

The platform condemned the action of the Republicans in creating the office of road commissioner and favors the proposed amendment to the state constitution, which provides that the high schools of the state be maintained out of the general tax fund.

The convention nominated the following ticket:

For State Senators—Thomas N. Taylor, of Provo; Alma Greenwood, of American Fork. For Representatives—Jesse Knight, of Provo; A. T. Money of Spanish Fork; James E. Hall, of Springville; J. H. Clark, of American Fork.

For County Officers—Commissioner, four year term, Geo. A. Storrs, Provo; County clerk, Ashley Bartlett, Provo; Sheriff, J. T. Williams, Provo; County recorder, H. F. Thomas, Provo; County treasurer, Mrs. Luella Raymond, of Springville; Assessor, Jacob Robertson, Spanish Fork; Attorney, A. B. Morgan, Provo; Surveyor, Geo. S. Schow, Lehi; Superintendent of schools, George N. Childs, Lehi.

The Schubert Ladies' Quartette sang some excellent campaign songs, and were given hearty applause by the delegates.

STATE FAIR TO BE BEST YET

Many Big Free Attractions to be
Added This Year

Nothing short of the best exhibition ever held in the intermountain region will satisfy President J. G. McDonald and members of the Utah State Fair association is the verdict on the state fair which will be held in Salt Lake October 3rd to 8th. For months the board has been energetically at work and the fruition of the plans is near.

Every department of the fair will be larger than in the past, as is indicated by the veritable flood of entries that is pouring in on Secretary Horace S. Ensign and his assistants. In 1909 more than 10,300 separate entries were made. The indications now are that this great number will be far surpassed. Entries already made and the inquiries indicate this beyond question. More than \$15,000 will be expended in prizes. In addition there will be 24 cups and 70 gold medals awarded. For the speed department another \$6,000 has been appropriated, a sum sufficient to insure good racing every day of the fair.

A department that will meet with public approbation is the decision to make all the open air entertainments absolutely free. In the past much of this entertainment has been given in the form of the grand stand which necessitated the purchase of seats in the grand stand by persons who wished to see the acrobatic and other feats. The fair management decided as the fair is a public institution, it should be made possible for the public to see it. For this form of entertainment an appropriation of \$4,000 has been made and this sum will be augmented if a satisfactory airship can be procured, as is hoped.

In the various building of the fair the displays, it is expected, will be vastly superior to those of the past. The demand for space is indicated by the Merchants' Demonstrating building; a new department this year to house the exhibits of merchants who handle foreign manufactured goods. Though this is the first year for this building, the space in it was practically gone within a few days after the announcement was made.

As in the past supervisors are in charge of the various departments of the fair, who make arrangements subject to the disposition of the board. The supervisors are: horses, B. F. Redman; cattle, W. H. Rowe; sheep and swine, I. H. Seely; poultry, Robert R. Irvine; dairy product, Wm. C. Winder; horticulture and floriculture, C. A. Hickenlooper; agriculture machinery, etc., Thos. H. Smith; manufactures, Frank J. Hewlett; minerals, Thos. H. Smith; fine arts, Mrs. P. J. Riter; women's work, Mrs. N. A. Empey; educational, Mrs. P. J. Riter; speed, A. B. Carstensen.

A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under supervision of R. R. and Wireless officials and places all graduate into positions. It will pay you to write them for full details.
